Mission Statement: Ignite Learning Academy propels student curiosity, engages students in personalized learning, and inspires a passion for learning in a safe and encouraging online environment.

As a virtual teacher, you will work directly with students to deliver content, acceleration, remediation, and additional assistance as requested by the student/family or determined by data. You will have the opportunity to collaborate with your peers as well as with the student’s family.

Instruction will be delivered by way of a web-conferencing tool, in response to emails, and even over the phone. Students are held accountable for making forward progress in the curriculum, but students will learn at different rates of speed, have differing interests, and will be uniquely motivated.

Required Qualifications

- Possess a passionate belief that online education is the ideal school option many children in grades K-12 and work to inspire learning and passion within all students;
- Believe every child learns in unique ways and is capable of success;
- The desire to work 1-on-1 with students to ensure instruction is appropriate for their individualized needs;
